The first onse tried was a suit for damages brough; by Henry F. Booth against the Yonkers Railroad Company.

In the Board of Supervisors yesterday morning the greater portion of the session was taken up by a discussion of the merits of the several bills pending in the Legislature cancerring the sulfding of the Bronx Valley sewer. The Board is evidently in favor of the sewer being built and maintained as a general county charge, and so expressed itself by a vote of 17 to 15. The minority suld that the cost should be a charge upon the towns benefited.

The New-York City bepartment of Public Works, through a communication sized by H. T. Dykman, Acting Corporation Counsel, requested the appointment of a committee of five to act with the New-York authorities in the matter of changing and reconstructing highways in the upper portion of the county in the neighborhood of the Cornell Dam. A resolution was introduced calling the attention of county effects to the fact that ander the present law certain supplies must be purchased from the State Prison authorities. The resolution was accompanied with a list of the supplies the prisons were prepared to furnish. According to the law quoted in the resolution Boards of Supervisors are directed not to adult bills for these articles procured elsewhere unless accompanied by a certificate from the prison authorities that they could not furnish them when requested so to do. The resolution and the law upon which it was based were so fur-reaching that

AGAINST THE FINN BILL.

RESOLUTIONS OPPOSING IT ADOPTED AT THE REAL ESTATE EXCHANGE-INDIGNANT VESEY-ST. MERCHANTS LEAVE

THE MEETING. A meeting of citizens, called by the Committee on City Affairs of the New-York Board of Trade and Transportation, was held yesterday in the Real Estate Exchange, No. 59 Liberty-st., to protest against the passage of the Finn bill by the Senate, and to appoint a committee to urge the Governor and the Mayor of this city to veto the bill if passed. The bill referred to was introduced by Assemblyman Finn on January 21, and passed the Assembly. It is an act to authorize the use of the sidewalks to the stoop line in certain streets avenues and thoroughfares surrounding the public markets in the city of New-York for the display

and sale of all kinds of merchandise.

Lawrence J. Calianan, who is one of the foremost opponents of the Finn bill, called the meeting to order, and William McCarroll, of the Board of Trade and Transportation, presided. Mr. Callanan then made an address protesting against the bill and explaining its objects. "The occupation of the stoop line for the sale of any kind of goods is a curse to us," declared Mr. Callanan, emphati-

Colonel Waring, of the Street Cleaning Department, was the next speaker. He said: "My Department is affected by this occupation of the stoop line. You would be astonished to know what a large part of the litter comes from the use of the sidewalks for private business. I believe that it is the right of the people to have the use of the sidewalks, and that nobody has the right to in-terfere with them."

Charles Blandy, of No. 15 Wall-st., who represents the Washington Market Business Men's Association, then arose to oppose the passing of the resolution, declaring that if the people were not allowed to display their wares on the Vesey-st. sidewalks they would be ruined. Mr. Calianan jumped to his feet and protested that Mr. Blandy was out of order. An animated controversy ersued between the two men, in which the Vesey-st. merchants favoring the bill, who were in attendance, joined in denouncing and hissing Mr. Calianan, Finsilly the chairman restored order and gave Mr. Calianan the floor, declaring any one out of order who arose to speak in favor of the bill, on the ground that the meeting was called to protest against it. The supporters of the Finn bill then indignantly withdrew from the meeting.

Resolutions protesting against the passage of the bill on the grounds already stated were then adopted, and they were at once sent to the Senate by telegraph. sents the Washington Market Business Men's As-

adouted, and they were at one set by telegraph.

At a meeting of the Committee on Legislation of the Real Estate Exchange the Finn bill was opposed. The proposition of L. R. Berg to have more trains on the elevated roads and more cars on the street roads, to prevent the present overcrowding, came up for discussion, but no action was taken.

DR. TINKER SEEKS A NEW TRIAL.

HIS COUNSEL CONTENDS THAT THE EVIDENCE AT THE LAST HEARING DID NOT JUS-TIFY THE VERDICT.

Charles Blandy, counsel for Dr. Charles A. Tinker. against whom Frederick L. Colwell recently ob-tained a judgment for \$50,000 for alienating the af-fections of his wife, Genevieve L. Colwell, after a similar verdict had once been rendered by default made a motion yesterday to Justice Bischoff, in the Supreme Court, for a new trial. Mr. Blandy contended that the verdict of the jury was against the evidence, and that Justice Bischoff had erred in refusing to charge the jury that the evidence did not justify a finding that the offence charged had been committed. Mr. Blandy raised a number of technical points, which, he asserted, entitled Dr. Tinker to a new trial.

These two people might as well take themselves off the face of the earth as expect to hold up their heads in this community if this verdict is permit ted to stand," exclaimed the lawyer.

Thomas O'Neill, counsel for Colwell, said that the verdict was not excessive, and cited several the verdict was not excessive, and cited several English precedents, in none of which, he said, was the defendant a physician who had privileges and opportunities that no other man could have. The defendant's failure to say anything when he was found in Mrs. Colwell's room at midnight, he ar-gued, was enough to justify the jury in finding him willty.

Blandy replied that the reason Dr. Tinker did not say anything on that occasion was that he knew he would be murdered if he did.

Justice Bischoff took briefs, seying that the only question he thought worthy of consideration was whether or not the \$50,000 verdict was excessive.

THE CHURCH INFIRMARY CLOSED.

The Church Infirmary and Dispensary was com-pelled through lack of funds to close its doors a few days ago. For several months the trustees of the institution have been considering the prospect of discontinuing the work of the institution, and as there appeared no chance of an improvement in its financial resources the trustees at their usual monthly meeting on February 10 decided that the infirmary must be closed. It was organized in 1892 for the purpose of centralizing the medical mission work of the Episcopal Church in this city, but in practice it has been non-sectarian. George Zabriskle is the president of the Infirmary; A. Lansing Baird, treasurer, and Appleton L. Clark secretary. In addition to the usual medical and surgical service the hospital afforded special treatment for the eye, ear, throat and nose, and for women's and children's discasse, Last wear over 1,500 cases were treated. It is understood that only about \$3,000 a year is requisite for the maintenance of the hospital. of discontinuing the work of the institution, an

Wheeter H. Peckham, representing the proponents of the will, said that Mr. Gardner had filed no petition to be allowed to come in, that it was not proper to go into the case at this time, and that the only thing Mr. Gardner could do was to file a petition to be allowed to come in in behalf of the alleged heirs. The Surrogate agreed that this was the only course, and Mr. Gardner said that he would at once file a petition. The trial of the main issues was adjourned until May 3.

Indications of the annual return of the grip ha en noticed by the physicians of the Health I partment, and a few deaths from the disease ha been reported. It is believed that the epidemic influenza will be milder than that of last year influenza will be minder than that of last year this city, but people are advised to be especia careful not to take cold. While the death r from influenza thus far has not been high, the a demic always is accompanied by an increased me tality from pneumonia, and the reports indi-that influenza has become generally prevalent

ARTHUR WHITE SUSPENDED.

ACTION BY THE STOCK ENCHANGE TAKEN AT THE REQUEST OF HIS FATHER,

S. V. WHITE. Francis L. Flames, the president of the New-York Stock Exchange, yesterday afternoon made the fol-lowing announcement from the rostrum of the Ex-

"As Arthur White is insolvent and has not declared his insolvency to the Exchange, he is hereby

In the history of the Stock Exchange there had been few instances where members had been sus pended before confessing their insolvency, and the innouncement by President Eames excited a great deal of comment. Later it was learned that the suspension was in pursuance of a request from Mr. White's father, S. V. White, who is widely knows by his Wall Street appellation of "Deacon" White

Arthur White has not been giving attention to his Stock Exchange business for some months. His looses have been entirely in outside ventures. He has no contracts on the Stock Exchange, and no body on the Exchange will lose by his suspension. Arthur White's office is on the third floor, at No

Arthur White's office is on the third floor, at No. 7 Wall-st., adjoining the office of his father. He has not been at his office since Christmas. When the entire circumstances of his suspension became known it was clear that his father had acted for his good and to endeavor to bring him to a realizing sense of his position. It was not that he owed very much, but that he was getting into debt and making no effort to get out of debt.

Arthur White is thirty-two years old. He is married, his wife being a granddaughter of the late Henry Ward Beecher. He has a fine place at Yonkers. His trouble seems to have grown out of his predilection for horse-racing. He and Richard Laimbeer own the Stockwell Stable. A liorse of theirs, Challenger, was heavily backed by them and by Wail Street men last year to win the Futurity, which it failed to do. The reveiation of the habits into which young Mr. White had fallen was surprising to Wall Street, and much sympathy for his father was expressed.

Young White can only secure readmission to the Steck Exchange by a vote of two-thirds of the members of the Governing Committee, permitting his name to go before the Committee on Admission.

MEDICAL SCHOOL TRANSFER.

THE UNIVERSITY COLLEGE ENTIRELY IN THE HANDS OF THE NEW-YORK UNI-VERSITY COUNCIL

The Council of New-York University yesterday fternoon held the largest meeting of that body which has been convened in ten years. There were twenty-two members present, as follows: Chancel or Henry M. MacCracken, William Allen Butler William A. Wheelock, the Rev. Dr. John Hall, William Loring Andrews, Lemuel Skidmore, William S. Opdyke, Samuel Sloan, David Banks, Robert Schell, Israel C. Pierson, Joseph S. Auerbach, Charles T. Barney, Charles R. Flint, Dr. John P. Munn, Augustus D. Jullilaed, Charles R. Otis, Oliver H. Payne, Charles E. Miller, Henry R. Dimock, Cyrus C. Miller and James McCreery, The important business of the meeting was the

rift from the trustees of the University Medical ollege of their entire property, lying in East Twenty-sixth-st., between First-ave and the East River. This action was taken on the recommendaon of the University Committee on Medical Prop

River. This action was taken on the recommendation of the University Committee on Medical Property, consisting of Henry R. Dimock, Charles T. Barney, Oliver H. Payne and Charles E. Miller. The resolutions adopted by the Council in regard to the transfer declared that the University accepted the immediate responsibility of the organization and support of the University Medical College, which heretofore it had undertaken indirectly through the members of the governing faculty, and that the committee would seek information from each of the professors of medicine in refagence to the condition and needs of the medical school, in order to place it in the front rank in medical education.

After the meeting, which was held in private, Chancellor MacCracken explained the situation as follows: "The University Medical College, organized in 1811, has been for fifty-five years a partly autonomous cornoration, the nomination of professors and governors being in the hands of eight trustees, of whom five were professors. The University Council has, however, always had a veto power in reference to the election of professors. The present important step is only the carrying out of the plans of the late Dr. Alfred L. Loomis, who at the time of the reception through his instrumentality of large gifts for the Medical College secured an amended charter, with the provision that the property might be transferred as soon as it was thought beam proviso was made in the charter of the Loomis Laboratory Corporation. The trustees who have transferred the property at his time are D. Willis James, president, Francis L. Stetson and Charles E. Miller, together with Professors Pardee, Thomson, Polk, Stimson and Witthaus The object of the transferred to secure the advancement of the University Medical College to the greatest possible reputation and usefulness. The total property used by the college includes the Loomis Laboratory, and the endowment is at present over \$400.00 Much needs to be added to this in order to enable the school to take rank

A CHICAGO STORY DENIED HERE.

A story was printed yesterday that the Chicago University was running behind \$250,000 a year and that President Harper had threatened to resign, when John D. Rockefeller agreed to add enough to his gifts, already about \$8,000,000, to furnish the required extra annual income, to furnish the required extra annual income Mr. Rocke-feller was not at his office yesterday, but it was said there that, so far as was known there, there was no truth in the story.
